

Payment on Sell-Through

Smarter purchasing, more cash on hand

When retailers like you pay for inventory upfront, you lose access to working capital you need to run your business. Some products move faster than others, and you could be waiting weeks or months to recoup that investment.

Smarter, data-informed sales benefit everyone. And now they're a reality—with LeafLink's Payment on Sell-Through.

Payment on Sell-Through (PoST) is a new program that eliminates risk and frees up cash for retailers. Rather than investing thousands upfront, you'll only pay for inventory that has sold through to the consumer.

How it works

- 1** Sign up in seconds. Simply connect your bank account and provide your Metrck API key—**no credit underwriting required.**
- 2** We'll track your daily sell-through with real-time seed-to-sale data and provide detailed reporting right in the platform.
- 3** Each week, LeafLink will tally up what sold and automatically initiate a payment directly from your bank account to the seller's. No more tedious reconciliation, and no more manual payments.

A winning strategy for retailers

Free up working capital to invest in other areas of the business instead of tying it up in inventory

Mitigate risk associated with trying new brands and SKUs—if it doesn't sell, no problem

Automate reconciliation and accounts payable processes, freeing up time for your finance team

Earn cash back on every payment you send
